## CAN YOU SOLVE IT?

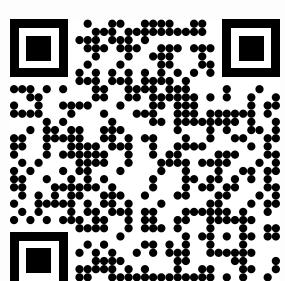

We don't make science jokes all the time, just periodically. We're looking for the genetic source of these jokes:

1. Do I think I'm losing my electrons?
2. I'm reading a book on anti-gravity.
3. A physicist and a biologist have a relationship.
4. The photon, asked why there was no luggage, said,
5. My science puns are bad, because all the good ones
6. When I try jokes on Helium,
7. You can't trust atoms,
8. How Oxygen's date with Potassium went:
9. When are multiplication and division the same?

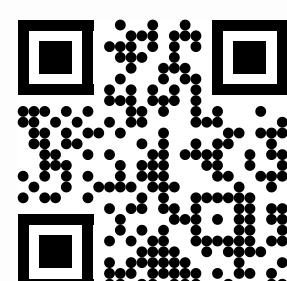

- a. Argon.
- b. I can't put it down.
- c. He doesn't react.
- d. They make up everything.
- e. There's no chemistry.
- f. In cellular biology.
- g. It was OK.
- h. I'm positive.
